0

30

(3 naranjas)

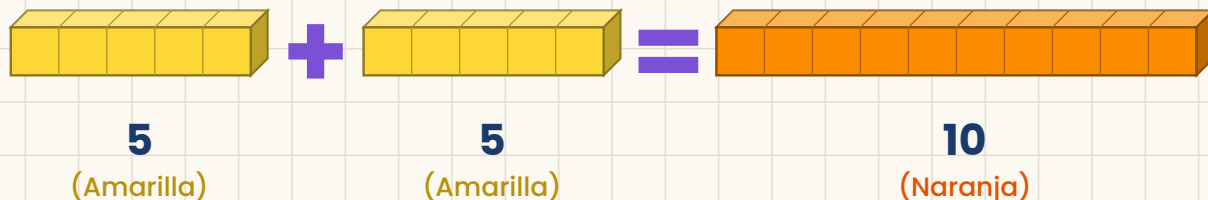

¡El cero mágico hace que el 3 se convierta en 30!

3 unidades → 3 decenas. ¡Es el poder de la decena!

¿Sabías que si sabes sumar hasta 10... ya sabes sumar hasta 100?

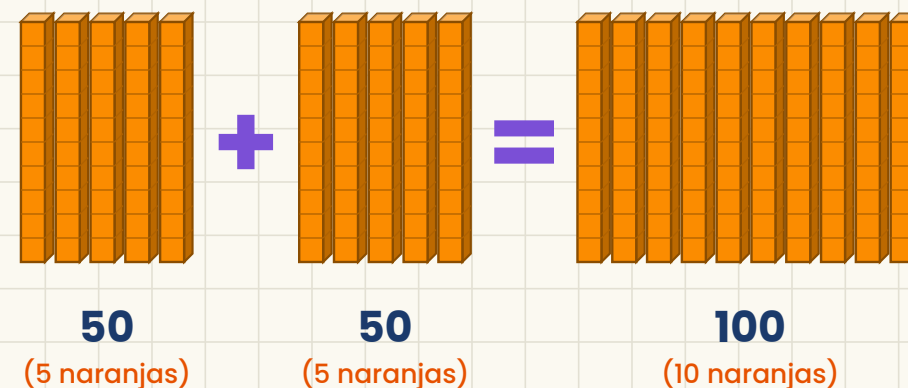

SUMAS HASTA 10

$$5 + 5 = 10$$

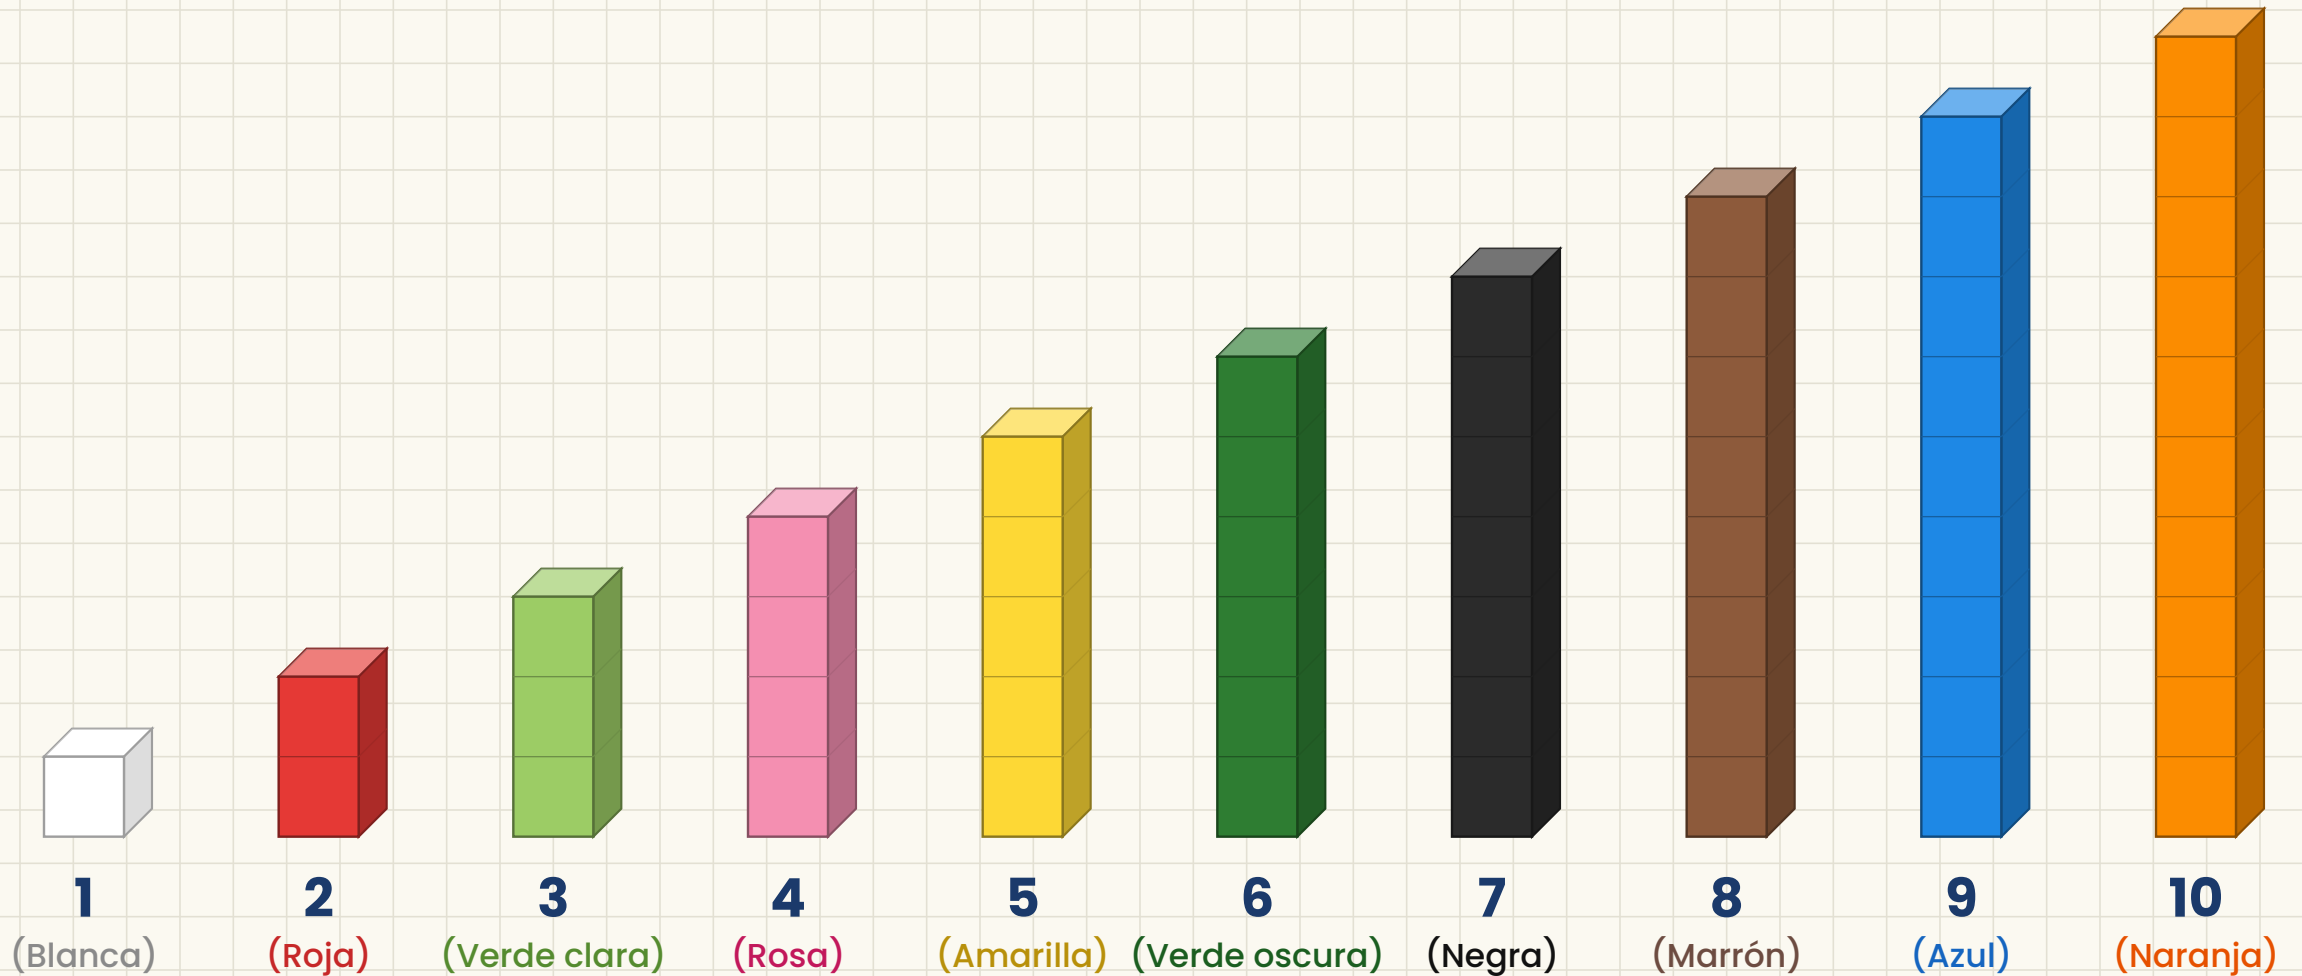

SUMAS HASTA 100

$$50 + 50 = 100$$

Mismo truco: $5 + 5 = 10 \rightarrow 5 \text{ decenas} + 5 \text{ decenas} = 10 \text{ decenas}$

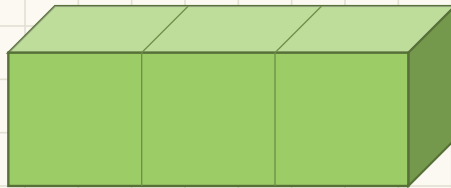

Nuestro Código Secreto

Cada regleta mide tantos cubitos como el número que representa.

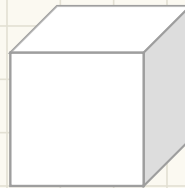

Lo que ya dominamos: Las Unidades

$$3 + 1 = 4$$

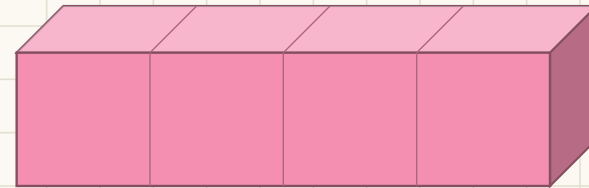

3
(Verde clara)

+

1
(Blanca)

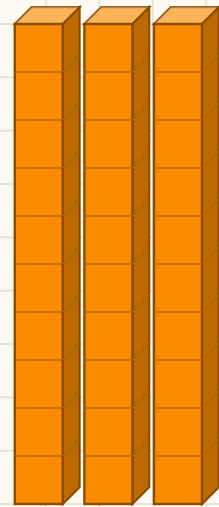

=

4
(Rosa)

El Espejo Mágico: Añadimos el Cero

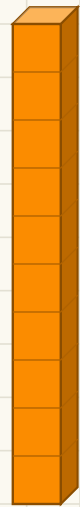

$$30 + 10 = 40$$

30

(3 naranjas)

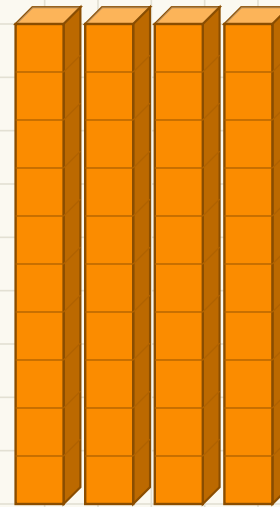

+

10

(1 naranja)

=

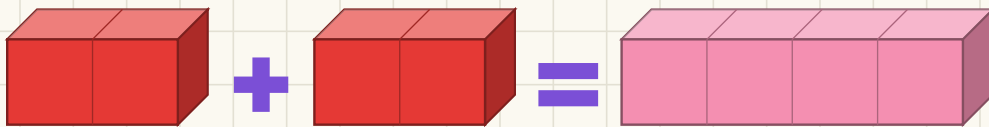

40

(4 naranjas)

$3 + 1 = 4 \rightarrow 3 \text{ decenas} + 1 \text{ decena} = 4 \text{ decenas}$

¡Funciona con todos los números!

$$2 + 2 = 4$$

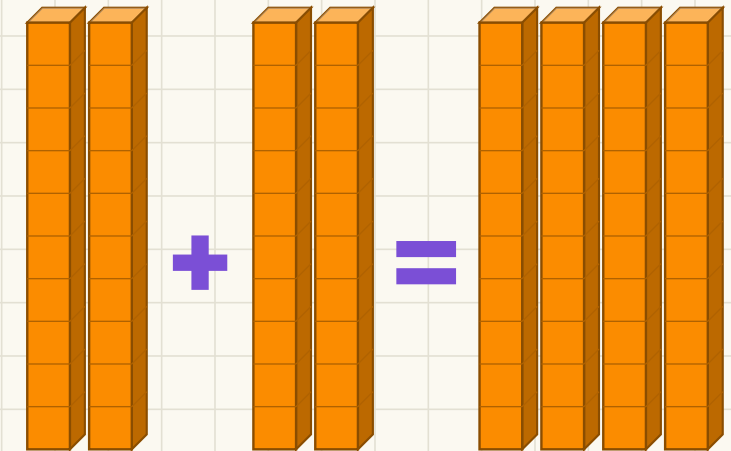

2
(Roja)

2
(Roja)

4
(Rosa)

$$20 + 20 = 40$$

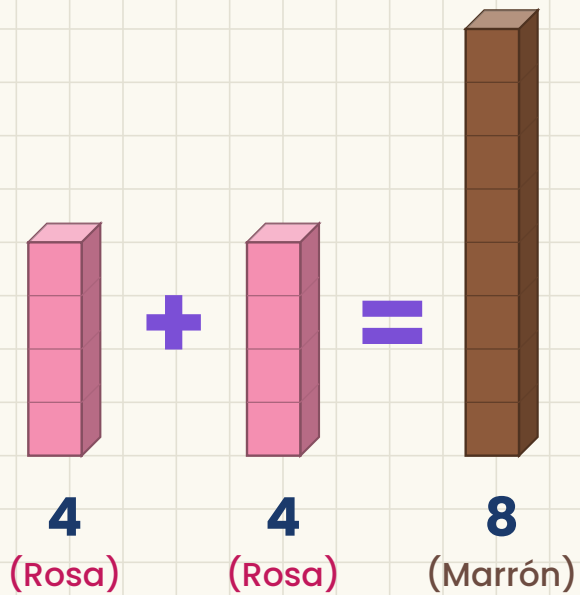

20
(2 naranjas)

20
(2 naranjas)

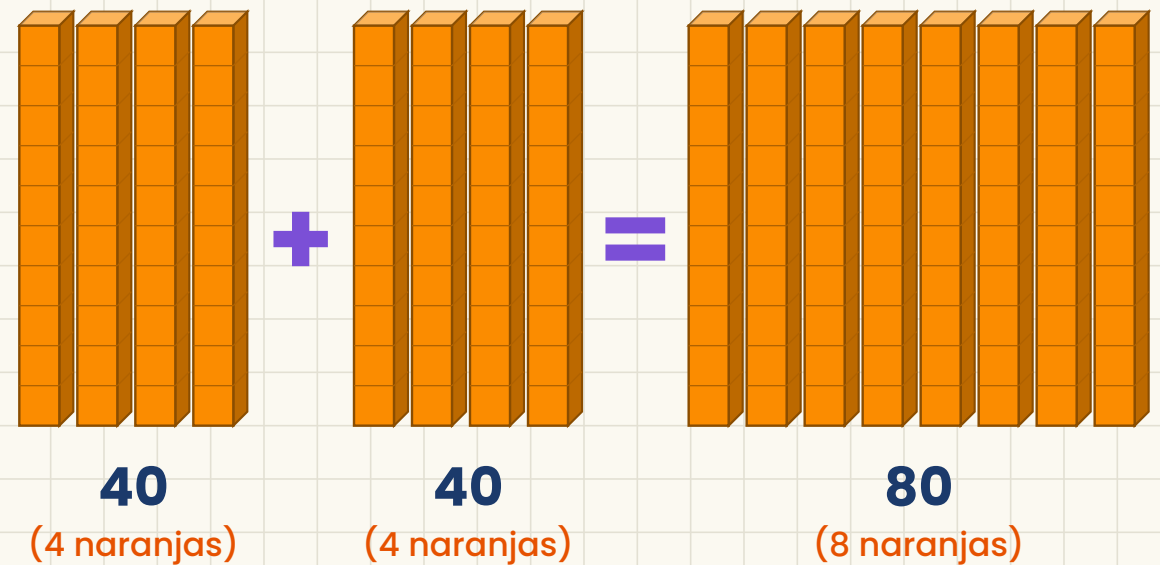

40
(4 naranjas)

¿Te fijas en los ceros?

$$4 + 4 = 8$$

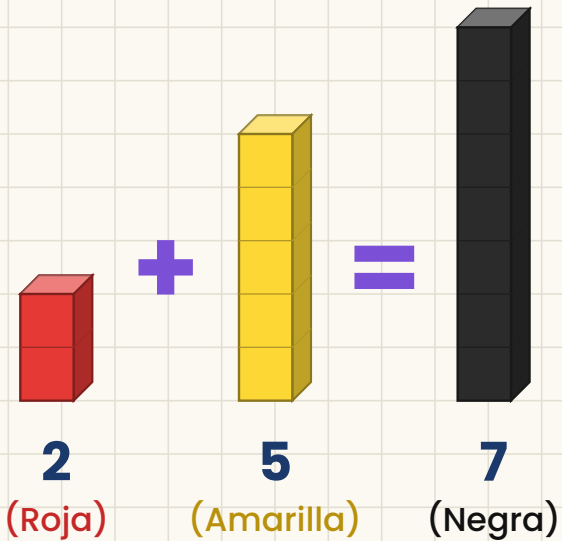

$$40 + 40 = 80$$

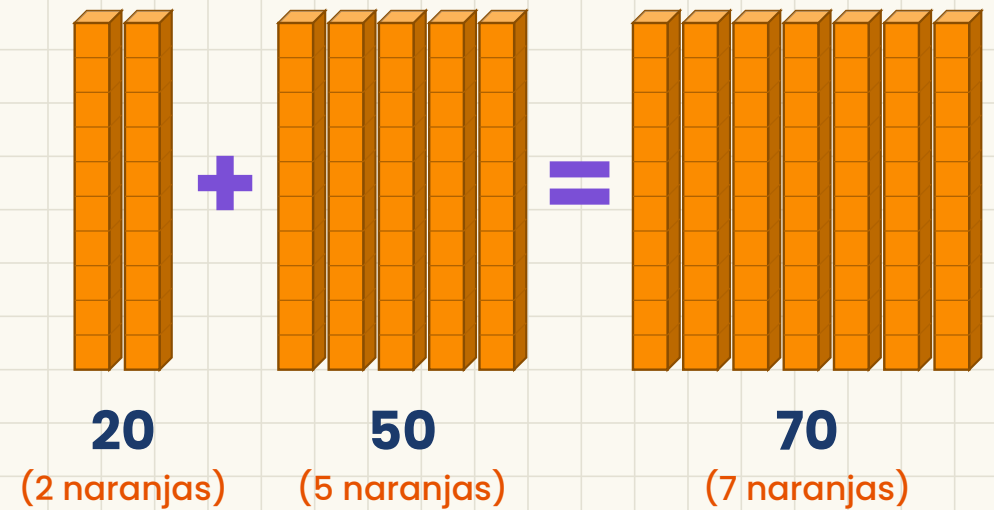

Un ejemplo gigante con números diferentes

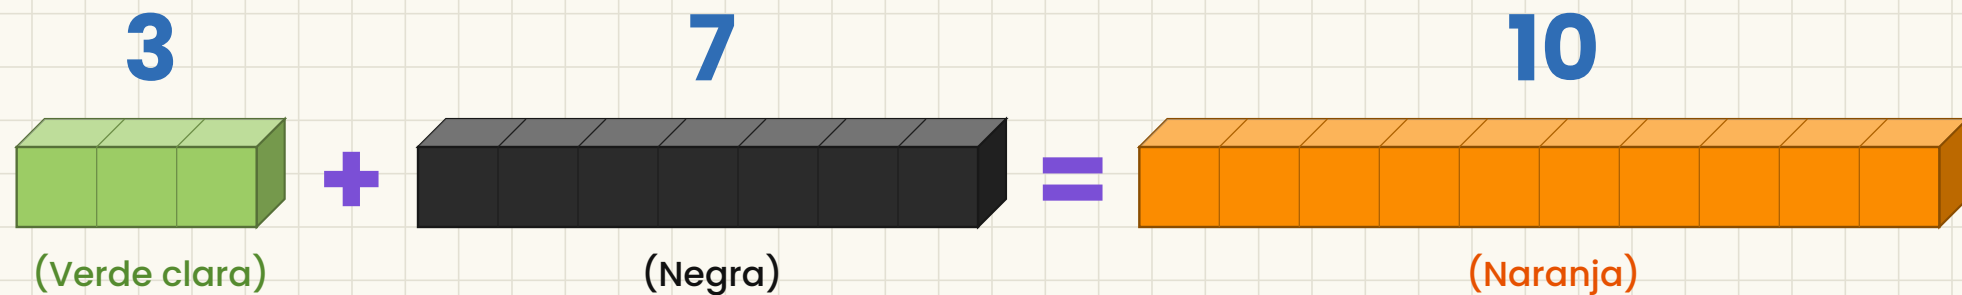

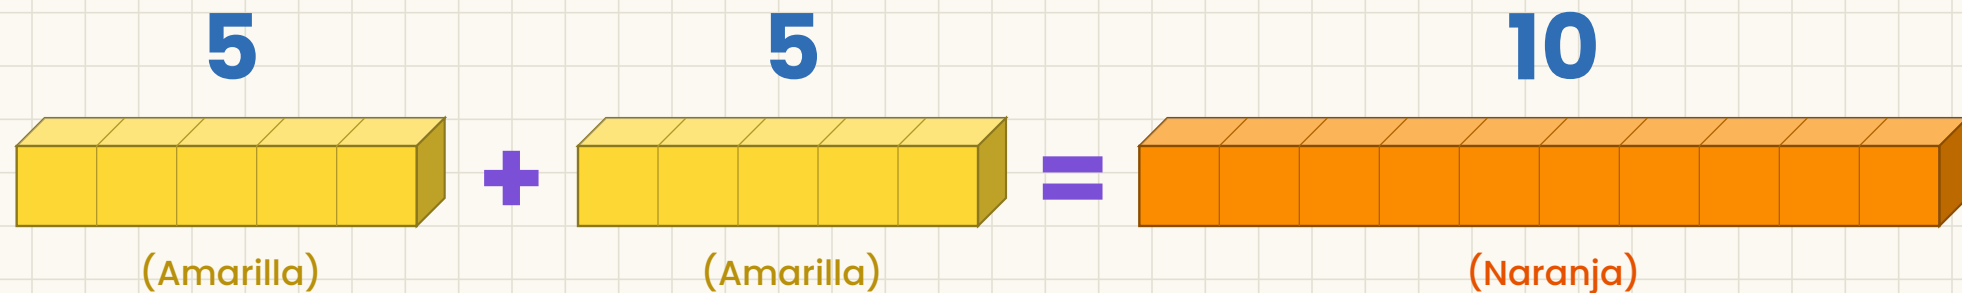

$$2 + 5 = 7$$

$$20 + 50 = 70$$

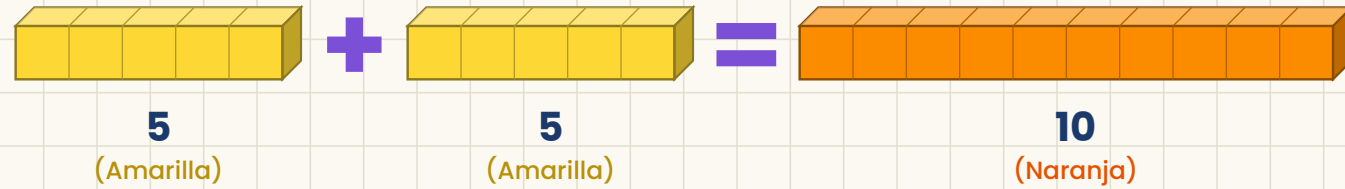

¿Recuerdas a los Amigos del 10?

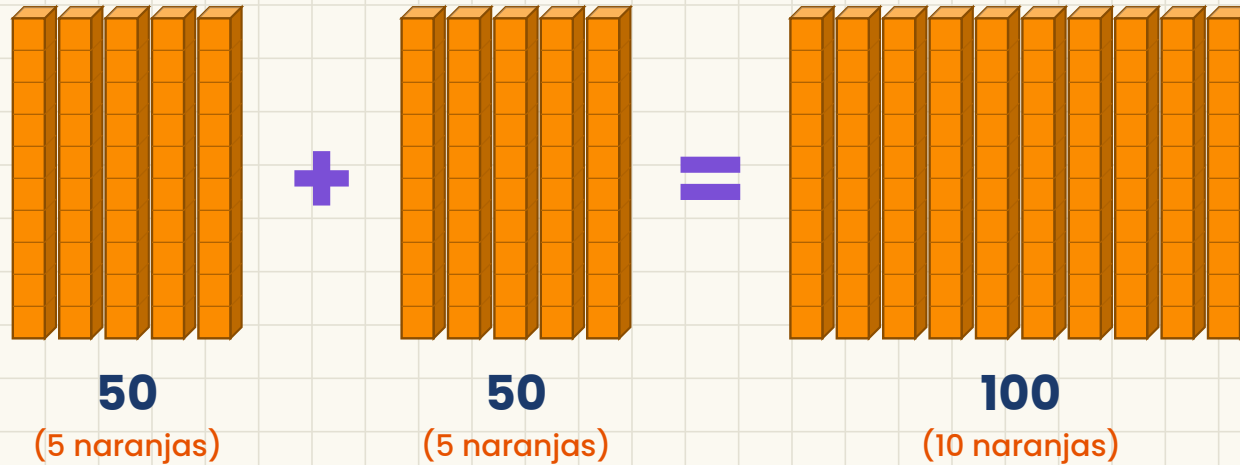

Juntas miden lo mismo que la naranja

¡Conoce a los Amigos del 100!

Recuerda:

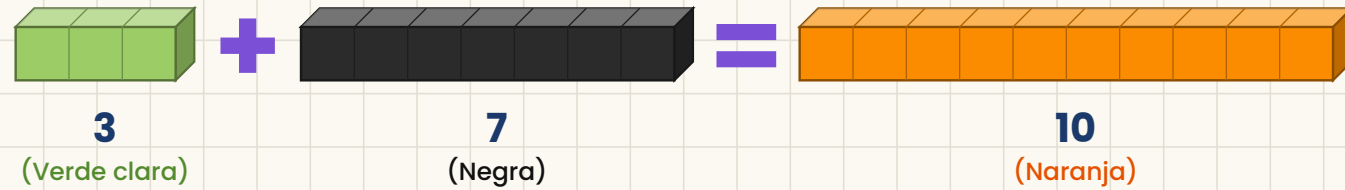

$$50 + 50 = 100$$

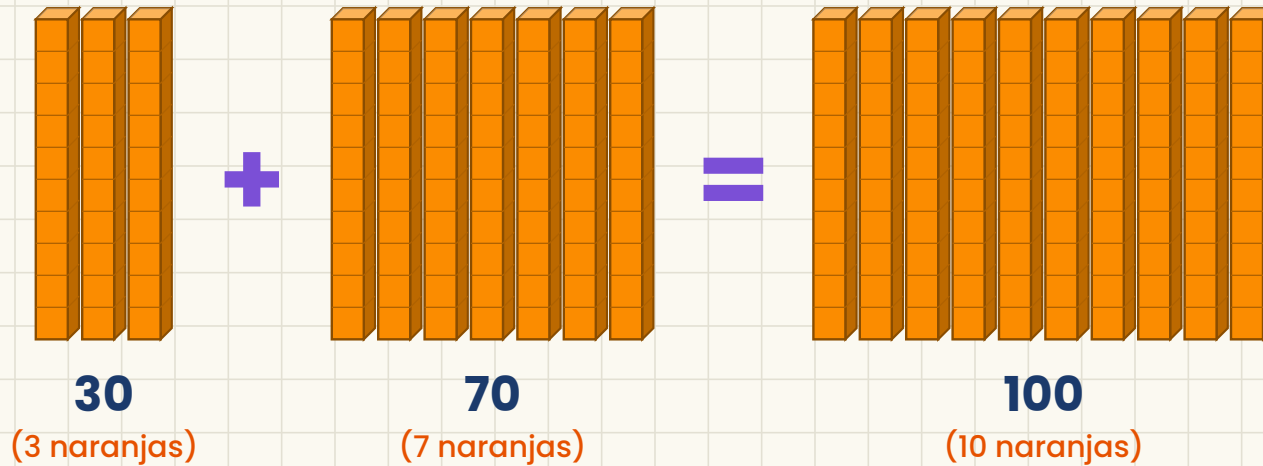

¡CIEN!

¡Otro súper amigo del 100!

Recuerda:

$$30 + 70 = 100$$

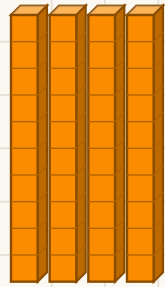

¡CIEN!

El Secreto del Cálculo Mental

Si sé que...	Entonces sé que...
$3 + 1 = 4$	$30 + 10 = 40$
$2 + 2 = 4$	$20 + 20 = 40$
$4 + 4 = 8$	$40 + 40 = 80$
$2 + 5 = 7$	$20 + 50 = 70$

¡Tu turno! ¿Qué regletas faltan?

$$40 + 10 = ?$$

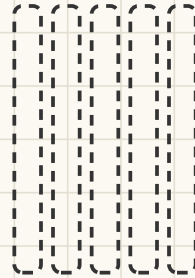

40
(4 naranjas)

+

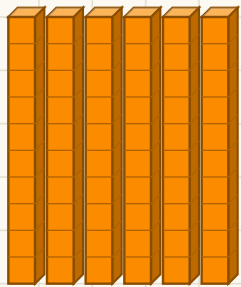

10
(1 naranja)

=

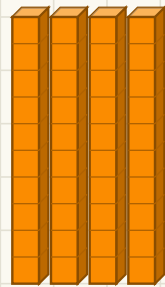

$$60 + 40 = ?$$

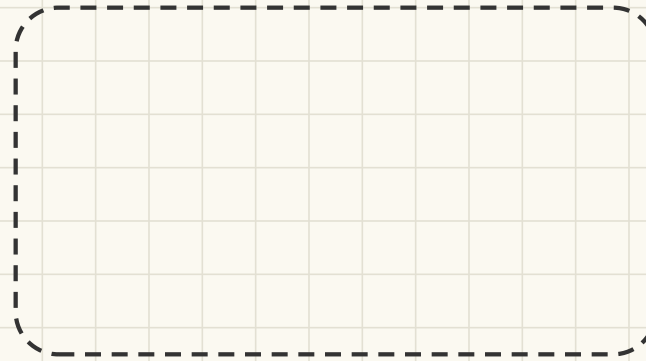

60
(6 naranjas)

+

40
(4 naranjas)

=

¡Reto de Cálculo Mental!

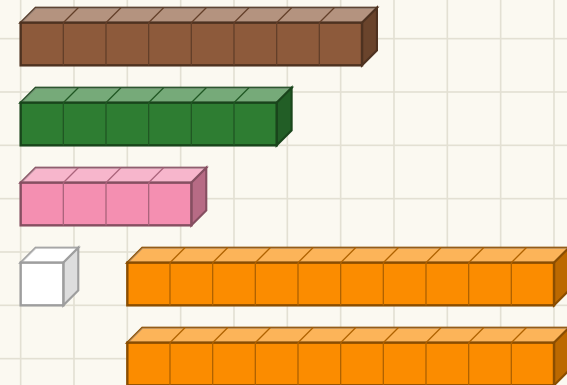

$$1 + 8 = 9...$$

¿Cuánto es $10 + 80$?

$$6 + 4 = 10...$$

¿Cuánto es $60 + 40$?

¡Ya eres un maestro de los números grandes!
